A6. MESSAGE TELECOMMUNICATIONS SERVICE¹

6.1 APPLICATION

Message Telecommunications Service (MTS)¹ applies to all MTS¹ messages and to message toll mobile telephone service furnished or made available by the Utility over facilities within a LATA.

6.2 STANDARD SERVICE OFFERINGS

6.2.1 TWO-POINT MESSAGE TELECOMMUNICATION SERVICE¹

A. GENERAL

1. Description

A toll telephone message is a completed call or telephonic communication between two exchange stations located in different local service areas, between toll stations or between a toll station and an exchange station to which rates are applicable in accordance with the provisions of this schedule.

2. Regulations

a. The toll service charges specified in this tariff are in payment for all service furnished between the calling and the called stations.

b. Toll service is classified and rated as either:

Dial (credit) calling card station	Coin person
Dial station	Operator station
Coin station	Operator person

c. Regulations applicable to Sections A. thru D. following.

Use of Service for Unlawful Purposes

Legal requirements for refusal or discontinuance of service are set forth in Schedule Cal.P.U.C. No. A2.1.31.

d. The designated commercial credit cards, authorized by contract for use, are as follows: American Express (AE), Master Card, VISA, Carte Blanche and Diner's Club, JCB (Japanese Credit Bureau). Acceptance of designated commercial credit cards is limited to the condition defined in Schedule Cal.P.U.C. No. A5.5.1.

f. California relay service calls may not be placed to:

- 976 or 900 numbers
- Time or weather recorded messages
- Other informational recordings

g. Express Call Completion

Express Call Completion (ECC) provides an incoming directory assistance customer requesting an intraLATA number a mechanized announcement offering call completion to the listed number requested.

The mechanized announcement will instruct the caller that for an additional charge they may have their call automatically completed by depressing a specific digit on the Touch Tone keypad. All completed calls will be charged the ECC service charge, in addition to any other appropriate charges.²

(D)

(D)

ECC service is effective on and after September 30, 1990.

ECC will only be furnished where facilities and operating conditions permit.

ECC will not be provided to the following services:

WATS Service
800 Service
976 Service
900 Service
Inmate Service
Zenith/Enterprise Service

This offering provides call completion on a LATA wide basis only.

Credits shall apply for completions to an incorrect telephone number.

The Utility assumes no responsibility or liability for any errors in the information furnished. The caller shall indemnify the Utility and hold it free and harmless of and from any and all claims, demands or damages that shall arise from the use of the service.

NOTE 1: Also known as Local Toll.

NOTE 2: See A.4.a.(14) and (16), following for rate.

3. Territory

Between two points within a LATA where the respective rate centers of such points also are located in said LATA.

4. Rates and Charges

a. Method of Applying Rates

- (1) Toll rates between points (cities, towns or localities) are based on the airline distance between rate centers. In general, each point is designated as a rate center; certain small towns or localities are assigned adjacent rate centers with which they are closely associated for communication purposes.

- (2) Determine the rate airline distance between the rate centers involved.

Where a point is divided into district areas specified in Schedule Cal.P.U.C. No. A6.2.7,B. the rate airline distance is the mileage between the rate center of the district area and the rate center of the other point, except that when such mileage exceeds 40 miles the rate airline distance is the mileage between the exchange rate center and the rate center of the other point with a minimum of 41 miles.

If both points are divided into district areas the rate airline distance is the mileage between the rate centers of the district areas, except that when such mileage exceeds 40 miles the rate airline distance is the mileage between the exchange rate centers with a minimum of 41 miles.

- (3) Refer to (12) following. Opposite the mileage step which includes the mileage determined as in (2) above, will be found the rates for sent-paid dial and coin station service; initial periods and rates for additional minutes for all classes of service between the rate centers involved. Below the table are the service charges for dial (credit) credit card station, operator station, operator person and coin person service.

Dial station rates apply to:

Sent-Paid messages dialed and completed by the customer from a residence, business or customer-owned pay (COPT) telephone without the assistance of a Utility operator.

Sent-Paid messages placed with the assistance of an operator where:

- Dial completion facilities are not available.
- Equipment or circuit conditions cause unsuccessful dial attempts.
- The customers identify themselves as being handicapped and unable to dial.
- The Utility operator must identify the calling number where automatic recording equipment is not available.
- The Utility operator reestablishes the connection after a service failure on a customer dialed call.
- The California Relay Service communication assistant completes a call between a TDD and a non-TDD telephone.
- The customers are identified as being visually or physically impaired (mobility impaired) and they use a Utility operator or Pacific Bell calling card to make a local call (except COPT).

Operator Station Service

Dial Station rates plus the operator station service charge apply to:

- Station messages billed to the called number, a third telephone number or a telephone company (credit) calling card where the (credit) calling card surcharge shown in (6) above does not apply.
- Station messages where the customer requests time and charges quoted.
- Interexchange Receiving Service messages (Enterprise or Zenith).
- Messages billed to special toll billing numbers, Q and Z included.
- Messages to or from a Mobile telephone where dial facilities are not available.

Operator Person Service

Dial station rates plus operator person service charge apply to:

- Messages for which the person originating the call specifies a particular person to be reached at the called point or a particular station, department, office or branch reached through an attendant at the called point or a particular land mobile station reached through a Radiotelephone Utility operator.

When, after the telephone service, or Radiotelephone Utility mobile radio system called has been reached, and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other station, department, office or branch to be reached through an attendant or to any other person or mobile unit to be reached through a Radiotelephone Utility operator, the call remains classified as a person service call.

(11) Timing of Messages - Chargeable Time

- Chargeable time for calls placed on a Dial, Dial (Credit) Calling card, Operator, Coin station, or California Relay Service basis begins when connection is established between the calling station and the called station or private branch exchange switchboard or Radiotelephone Utility system.
- Chargeable time for calls placed on an operator or coin person basis begins when connection is established between the person calling and the particular person called, another party acceptable to the person calling or the private branch exchange extension station called or mobile unit reached through a Radiotelephone Utility.
- Chargeable time for all messages ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Utility operator.
- Chargeable time for Mobile Telephone service messages, applies as shown in Schedule Cal.P.U.C. No. A5.9.2
- Chargeable time for Short Duration Coin (Express Call) calls, applies as shown in Schedule Cal.P.U.C. No. A5.5.1.
